Executive Summary: -

Enthusiastic Computer Science Engineering graduate with a solid foundation in data analysis, database management, and analytical problem-solving. Passionate about exploring data, uncovering meaningful insights, and supporting data-driven decision-making through effective analysis and reporting. Skilled in working with structured datasets, identifying trends and patterns, and transforming raw data into valuable insights while continuously enhancing analytical and data visualization skills. Eager to contribute technical expertise to impactful projects and grow within a dynamic data analytics team.

Education: -

- **Bachelor of Engineering in Computer Science and Engineering**, Loyola Institute of Technology, Anna University, Chennai — CGPA: 8.30 (2022–2026)
- **HSC**, St. Matthias' Anglo Indian Higher Secondary School, Chennai — 77% (2021–2022)
- **SSLC**, St. Matthias' Anglo Indian Higher Secondary School, Chennai — 76.6% (2019–2020)

Skills: -

- **Programming & Libraries:** Python, Pandas, NumPy, Matplotlib, Seaborn
- **Database & Querying:** SQL (MySQL)
- **Data Visualization & BI Tools:** Power BI, Tableau
- **Spreadsheet & Reporting:** Microsoft Excel
- **Tools:** VS Code, Git

Projects: -

- **Data Analyst Job Market Dashboard** – Developed an end-to-end job market analytics dashboard using Excel, Tableau, Python, Pandas, Streamlit, and Plotly to analyze hiring companies, salary trends, experience requirements, and in-demand technical skills for Data Analyst roles. Performed data cleaning, transformation, exploratory data analysis (EDA), and visualization to create interactive dashboards and generate actionable job market insights.
- **ShopSphere E-Commerce Analytics Dashboard** – Developed an end-to-end analytics dashboard using Excel, SQL, Power BI, Python, Pandas, Streamlit, and Plotly to analyze sales performance, profitability, customer segments, return rates, and regional trends. Designed KPI-driven reports and 5+ interactive visualizations to support data-driven decision-making and business analysis.
- **AI Sign Language Interpreter** – Developed an AI-powered sign language recognition system using Python, CNN, MLP, OpenCV, and TensorFlow to classify hand gestures and convert them into real-time text and speech. Implemented image preprocessing, model training, and prediction pipelines to improve gesture recognition and enhance communication accessibility.

Certifications: -

- **Data Analysis with Python** — freeCodeCamp | Jun 2026
- **Advanced SQL** — Kaggle | Jun 2026
- **Tableau & Excel** — Infosys Springboard | Jun 2026
- **Data Analytics Job Simulation** — Deloitte Forage | Jun 2026
- **Data Analysts Toolbox: Excel, Python, Power BI, PivotTables** — Udemy | Jun 2026
- **GenAI Powered Data Analytics Job Simulation** — Tata Forage | Jun 2026
